

Rec<sup>d</sup> Cambridge April 25

Philadelphia, April 23, 1868.

Dr. Geo. Engelmann -

Dear Sir: Accept my thanks for No. 97 of your *Juncei* and a copy of the Revision which I found addressed to me at the Academy on Tuesday evening last.

I assure you it was the least of my expectations of being included among the one hundred who were each to receive such a valuable package as your *Herb. norm.*

But since you were so kind as to make <sup>me</sup> such a liberal return for the very little help afforded you, as one of the collectors of materials for the above work, I shall find great fault with myself if I do not profit by this new light you have placed before my eyes, and add my mite to the future history of the *N. A. Juncei*.  
Respectfully Yours, C. D. Dillenbaugh.
